Invitation to our seminar “Switzerland’s position in a changing international tax environment” of 28 May 2019 in Zurich

Dear Sir or Madam

On 28 September 2018, the Swiss Parliament passed the Federal Act on Tax Reform and AHV Financing (TRAF). The public vote will take place on 19 May 2019. If approved, the TRAF will reshape Switzerland’s corporate tax landscape with the aim of ensuring that Switzerland retains its leading position as a favorable business location including competitive effective tax rates. Notwithstanding, Switzerland’s position must be considered in the ever-changing international tax environment. Therefore, understanding the impact of various important initiatives at OECD and international level is critical.

We are pleased to invite you to our seminar,

**“Switzerland’s position in a changing international tax environment”
on Tuesday, 28 May 2019, 4.30pm

This event will take place shortly after the public vote. We are delighted that various speakers will join us to share their valuable insights.
